PLEASE NOTE

We are a bunch of amazing, hard-working human beings. Be patient, but if your food takes too long, please feel free to double-check with the team. Preparation should not take longer than 45 minutes – in case we are busy.

What else? Due to seasons, it sometimes gets hard to catch seafood, which is not protected. Please be prepared, that in peak seasons we refuse to buy seafood for 5 times the price.

On top - sometimes our beautiful ocean suffers from overfishing octopus. As soon as there is a shortage of big octopus (we don't buy the children), we won't serve them for as long as it takes.

We also only buy what grows on this beautiful island. We support local farmers, so if we run out of different veggies or fruits, please understand and be patient. They'll be back soon.
